What is crowdfunding?

Crowdfunding is a new type of fundraising where you can raise funds for your own personal cause, even if you're not a registered nonprofit.

The page owner is responsible for the distribution of funds raised.

Story

We are raising funds for Bradley, he was involved in a motorbike accident. He has sustained life changing injuries as a result of the accident. His spinal cord was damaged and as a result, he is paralysed from the chest down and doctors have said that he will not walk again.

On 2nd of May, Bradley was involved in a motorbike accident which damaged his spinal cord in 6 places, which paralysed him from the chest down. Bradley also suffered with a broken wrist and a broken thumb on the opposite side, and a punctured spleen. And also a bleed to the brain.

Bradley was in intensive care for just over two weeks. He was a fighter, strong and became stable.

Bradley had a major operation on his spine where he underwent 6 hours of surgery.

He also has had an operation on his thumb and his wrist where he has had metal work inserted to help the use of his wrist and thumb.

Bradley is now in his 3rd hospital, in a rehabilitation unit where he will undergo rehabilitation in order to learn how to use a wheelchair and prepare him for life at home.

Bradley's parents house will need adapting in order for Bradley to go home. This will need to be adapted to cater for all of Bradley's needs.

He will also need carers and specialist equipment.

Any donations to this cause will be gratefully received!

We are overwhelmed by the generosity and best wishes we have received. 13 % already raised. we can't thank you enough. Bradley has come so far since may and has such determination and fight to do as much as he can. Bradley has his low days and longs to come home but has amazing support from family and friends. This fundraiser will allow him to come home and supply him the equipment to live his life, Thank you very much for all your support.
